

Sand Castles

Water warmed by the sun, sand between my toes.
Summer breeze 'cross the waves, salty to my nose.

Clouds all wispy and white, birds are taking to flight.
Oh. Build a castle made of sand.
Make it small or make it grand!
Sand castles. Sand castles.

Build a room, build a moat, build a castle wall.
Let the waves come ashore, it's okay to fall.

We can build it once more from the sand on this shore.

Oh. Build a castle made of sand.
Make it small or make it grand!
Sand castles. Sand castles.

Ooh.
